

Mr. Haring,

Where was your support last evening at the church's annual meeting? If you are so sure you are correct why didn't you attend to explain why you have sued not only our church but your church? Through your actions you are costing the church a financial burden as well as being unchristian to our parishioners. I do not want my pledge to go to defending a lawsuit. I can't understand why you can't work out a solution. Does it really matter if the church's money is divided into separate accounts or all placed into one account? I heard you want a million dollars be placed into a separate graveyard account to be used for only the graveyard. Is the graveyard more important than the continued workings of the church? Who made the decision to put all our finances in one account? You were a member of our vestry committee when this was approved so why are you taking this action now since the church has been doing this for five years or more and the graveyard is still being cared for/ There is new slate walks around the church and a new structure for cremation ashes. Jesus told Martha to let the dead take care of the dead so why are you insisting on getting what you want regardless of what the elected vestry committee chose to do with the money when they are in charge of making such decisions. I think you must be angry that you are not involved in directing decisions of the vestry committee. I remember seeing you and your wife working in the graveyard and doing plantings so I can only wonder why you would try to bankrupt our church by making such an argument. At the meeting Fr. Visconti said that this is nothing personal against you so he at least is trying to resolve this situation without having to spend twenty thousand dollars of the church's money. Money we people give to the church not just to the graveyard. What good is having a graveyard without a church! What good without parishioners. You should give what you are doing some thought. Then you need to attend a Sunday service and apologize to Fr. Visconti the vestry committee and parishioners.
